(54) MENU DISPLAY SYSTEM

(57)Abstract:

PURPOSE: To execute the command high in use frequency in a shorter time than in the conventional.

CONSTITUTION: The title system is constituted by providing a display part 13 to display the names of plural menus and the names of plural constituent commands, a key input part 14 to key-input a control signal related to display, a counter part 15 to count and store the frequency in use of each of the plural menu names and the frequency in use of each of the plural command names constituting each of the plural menu names, a storage part 12 to store data to be used for displaying the plural menu names and the plural command names, etc., and correspondence data with the inside of the counter 15, and a control part 11 to control the whole system, and when a display control key 143 in the key input part 14 is pushed down, the control part 11 reads the frequency in use of the plural menu names and the plural command names from the counter part 15, and displays the plural menu names and the plural command names on the display part 13 in the order of the priority of in use frequency.
